

# THE MEMPHIS DAILY APPEAL—THURSDAY, MAY 26, 1859.

## Local Matters.

Thursday Morning, 122 May 26, '59.

**Tobacco Sale.**—There will be a sale of tobacco, at the inspection warehouse of the Navy-Yard, at 11 o'clock this morning.

We acknowledge the receipt of a club of twenty subscribers from our friend A. M. Simons, at Andalusia, Gibson County, Tenn., and are sorry to find that these contained evidence of opposition.

**Something New.**—Meers, Green & Shryock have on hand a limited quantity of the English Fluke iron potash, which are now in this city, and every superior for planting. Call and examine them before they are gone.

**Board Wanted.**—A gentleman who has made the chief gains, yesterday, by the removal of his residence, is anxious to obtain a house within half a mile of the post office. Address him, box 254 post office.

**Recorder's Court.**—Six additions were made to the chief gains, yesterday, by the Recorder, and to the amount of \$1,000, he has been paid. The recordership was disposed of, none of which were of great importance.

**Cory Schools.**—The gardener that has hitherto had the care of Court Square has been discharged in accordance with a resolution of Council; he is succeeded by Mr. K. H. Cory, whose name and address are given in every seat order, and who appears disposed to be courteous to visitors.

**A. F. Faxon Jones.**—An ordinance passed Council a first reading, constituting J. H. Edmondson, Esq., Director of the Hook and Ladder Company, "the proper person," of the necessity of casting down. In the event of a fire, he is empowered to take such measures as may be deemed necessary to prevent the damage and loss of property from being suffered.

**Alley Contractor.**—The long street, running from Shelly to Main street, has long been an opening used as an alley, parties are now desiring this to private uses, and clauses are being inserted in leases to prohibit its permanent living in that neighborhood, or others, desirous to retain it for public use, they should not fail to petition Council upon the subject at their next meeting on Tuesday night.

**Play Low.**—The following was the suggestion of old and experienced friends, who with whom the author of this column is in full agreement that those who hold the paper responsible for him not sufficiently governed by the great principle that is the secret of all success in having with fire. This principle is expressed in the following:

"Throw your water not on the top of the fire, where it will be turned aside by roofs, floors, and other obstructions, or, touching the fire, will fly off in ashes, but throw it at the base of the fire, that is, at the point of ignition, where it may easily penetrate the fuel, and another it; throw the water at the lower, burning point, which is by its ascending heat engulfs the whole fire—destroy first that ringholder of the ride."

The City Jail.—A respected correspondent in our yesterday's issue, expressed regret that we should have suggested the use of lime and soap at the time of the breaking up of the jail, and the expenses which the prisoners are subjected to. We believe that suggestion was a good one, and hope it will be acted upon.

The custody of the jail, and the right of property in it, are at the present time, in the hands of the sheriff, who is to be held responsible for the care of the inmates.
